## DETAILED ACTION

### Summary

On June 4, 2004, an Office Action was sent to the Applicant rejecting claims 1-24, 26-33, and 35-38. October 6, 2004, the Applicant responded by amending claims 1-3, 24, and 26.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-6, 8-19, 24, 26-30, 32-33, and 35-37 are rejected under 35 U.S.C. 103(a) as being unpatentable over McCarver (5,362,306) in view of Larson (5,752,926).

McCarver discloses the invention substantially as claimed (as set forth in the previous Office Action, mailed on June 4, 2004); however, McCarver does not disclose the sleeve having a shape configured to conform to the shape of a finger or toe of a user. Larson teaches an elastically deformable orthopedic cast that may be sized to conform to the shape of a finger or toe (col.11, line 65 to col.12, line 2). It would have been obvious to one having ordinary skill in the art at the time the invention was made to incorporate a sleeve configured to conform to the shape of a finger or toe, as taught by Larson into the invention disclosed by McCarver, to demonstrate that the cast may be sized to fit any appendage.

Claim 7 is rejected under 35 U.S.C. 103(a) as being unpatentable over McCarver and Larson as applied to claim 6 above, and in further view of Abuto (5,804,021), as set forth in the previous Office Action.

Claims 20-21, 31, and 38 are rejected under 35 U.S.C. 103(a) as being unpatentable over McCarver and Larson as applied to claims 1, 24, and 33 above, and in further view of Tanihara (5,77,229), as set forth in the previous Office Action.

Claims 22-23 are rejected under 35 U.S.C. 103(a) as being unpatentable over McCarver, Larson, and Tanihara as applied claim 20 above, and in further in view of Satoh (5,120,758), as set forth in the previous Office Action.

### ***Response to Arguments***

Applicant's arguments with respect to claims 1-24, 26-33, and 35-38 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 3624

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
